Goalkeepers-

Goalkeeping is one of the most demanding positions in all of sports. Unfortunately it is one of the most misunderstood and under-coached positions in all of soccer, especially at the high school and youth levels.

Our goalkeeper's school will provide you a broad based knowledge for keepers who play at any level of competition. Our aim is to teach the basics through sequential training sessions that include all the fundamental skills essential to the position. Our outstanding staff will then coach the individual goalkeeper showing them how to develop and adapt the fundamentals into their own style of play suitable for their individual needs and abilities. Every goalkeeper will play in camp games and will be closely observed by the staff.

GREAT LEARNING ENVIROMENT
AND FUN!

CHYZOWYCH SOCCER CAMP

BOYS AND GIRLS

OUR PROGRAM IN ACTION...

The purpose of the clinic is to provide outstanding coaching and demonstrations of fundamental and advanced techniques of soccer under the best possible circumstances so that good habits of play will be established. It is also our hope that with this concentrated individual coaching, each camper will be better able to achieve a place on the team of his or her choice. The important and intricate movements necessary for ball control are stressed over and over. The philosophy of the director is re-enforcement of the basics and advanced techniques to make a well rounded soccer player.
