

MTSA Photo Guidelines

In order to achieve this the following guidelines are suggested:

- Take the photo outside, during the day in natural sunlight.
- Grainy, low resolution photos taken at night or indoors will not be accepted
- Have someone other than you take the picture. Pictures like the type that everyone puts on Facebook with their arm in the picture and their head at a awkward angle will not be accepted
- Take the picture standing in front of a building or non distracting background.
