GAME PROTESTS

A protest shall be considered only when based on the violation or interpretation of a playing rule. No protest shall be considered on a decision involving an umpire's judgment. Any umpire's decision which involves judgment, such as if a hit is fair or foul, a pitch is a strike or ball or a runner if safe or out is final. Equipment which does not meet specifications must be removed from the game and shall not be the basis for protest. The managers or acting managers of contesting teams only shall have the right to protest a game. They may not leave the dugout until receiving permission from the umpire.

Protests shall be made as follows:

- a.) The protesting manager shall immediately, before any subsequent play begins, notify the umpire that the game is being played under protest.
- b.) Following such notice the umpire shall consult with the associate umpires. If the umpire determines that the decision is in conflict with the rules, the umpire shall reverse that decision. If, after consultation, the umpire is convinced that the decision is not in conflict with the rules, the umpire shall announce that the game is being played under protest. Failure of the umpire to make such announcement shall not affect the validity of the protest. The managers of both teams will then have the umpire sign their scorebooks at the point of infraction.

Any protest for any reason whatsoever must be submitted by the manager, first to the umpire on the field at the time of the infraction, and then in writing to a League Representative within 48 hours. The umpire-in-chief shall also submit a report (verbally or in writing) immediately.

The League Representative will then form a committee of 3 (three) random commissioners who are not associated with either of the teams involved in the protest. A protest meeting date shall be set and held within 1 week of notification of protest, and both managers will be notified. The committee of 3 (three) shall hear and resolve any such protest as above, including playing rules. If protest is allowed, game will be resumed from point when infraction occurred. The game will be scheduled to be played within one week of protest meeting date. Lineups and batting orders will remain the same as the originally played game.

NON PROTESTABLE VIOLATIONS

- 1) Non protestable violations should be reported to your commissioner as soon as possible. If you are uncomfortable reporting the violation to your commissioner, any other commissioner can be notified. Game protests are for actual playing rules on the field of play, see game protests above. Non protestable violations are instances that are in direct conflict with RCYB playing rules off the field of play that are not easily identified, basically any type of cheating, ie. Illegal rosters, minimum playing rules, illegal players, illegal/doctored bats, etc.
- 2) Non protestable violations can be brought to the commissioners at any time after the violation is identified. It does not need to be done during the game, at the time of the violation like a game protest. Once notified, the commissioners will investigate to see if the instance did in fact happen and if it is in fact a violation. If a violation did in fact occur, the 5 commissioners who are not associated with the team involved will take appropriate action up to and including removal from the league for all coaches and players involved. In addition all games throughout the season in which the violation occurred will be subject to possible penalties up to and including forfeits.
