## **Concussion**Signs and Symptoms Evaluation

### 404-785-1111

choa.org/concussion

### Signs observed by staff

- Appears dazed or stunned
- Confused about assignment
- Forgets plays
- Is unsure of game or opponent
- · Moves clumsily
- Answers questions slowly
- Loses consciousness (even temporarily)
- Shows behavior or personality changes
- Forgets events prior to hit (retrograde amnesia)
- Forgets events after hit (anterograde amnesia)

## Symptoms reported by athlete

- Headache
- Nausea
- Balance problems
- Dizziness
- Double vision
- Fuzzy vision
- Sensitivity to light or noise
- Feeling sluggish
- Feeling foggy
- Change in sleep pattern
- Concentration problems
- Memory problems

Symptoms may worsen with exertion.

Athlete should not return to play that day and must be cleared by a physician before returning to activities.

choa.org/concussion

### Ask the athlete the following questions:

What city is this? What month is it?
Who is the opposing team? What day is it?

## Ask the athlete to repeat the following three words:

Girl, dog, green

### Ask the athlete the following questions:

What happened in the prior quarter/period?

What do you remember just prior to the hit?

What was the score of the game prior to the hit?

Do you remember the hit?

#### Ask the athlete to do the following:

Repeat the days of the week backward (starting with today).

Repeat these numbers backward:

63 (36 is correct) 419 (914 is correct)

### Repeat the three words from earlier:

Girl, dog, green

Any failure should be considered abnormal.

The athlete should not return to play until cleared by a physician as a concussion may have occurred.
