

Accident Claim Form Instructions

As part of the Monarch Little League Safety Plan, if a significant injury is sustained during a practice or game by a player, coach or spectator, the manager must notify one of the league emergency representatives within 24 hours. The phone numbers of these representatives are supplied in the first aid packages distributed to each team and posted at each field in the storage bins. In addition, the manager is required to fill out an accident claim within 48 hours of the incident.

A significant injury is defined as any incident that:

1. Causes a player or coach to be removed from the remainder of the game or practice.
2. Causes a spectator to leave the scene and seek medical attention.

Scrapes and bruises that cause a player to require administration of a band-aid or short rest do not need to be reported. This is a subjective call by the manager/coach.
