

REFEREE EVALUATION FORM

Date: _____ **Field :** _____

Game Time: _____ **Age Group:** _____

Your Team: _____

Opposing Team: _____

Please answer as necessary and feel free to add comments. The purpose of this form is to evaluate referees and determine their suitability for various levels of soccer officiating. Please do not let one or two close opinion calls influence your decision; instead, we ask that you look at the overall performance for the entire match.

1. Was the referee on time? (20 minutes or more before game time UNLESS he was coming from another field/assignment, in which case the home coach would be made aware) _____
2. Was the referee properly and professionally dressed and appeared to be in decent physical condition? (Shirt tucked in, black socks to approximately the knees, 2012 patch, if any shirt underneath referee jersey it was a solid color and matching jersey) _____. If not:

3. Did the referee perform safety/equipment checks and talk with the players before the game? _____
4. Was the referee generally in position to make the calls? _____ if not:

5. Was the referee's disposition friendly, firm, combative, instructional or something else? (Please circle or write in) _____
6. Based ONLY on this game, if you were able to assign the referee to your age group again, would you? _____ If not, why?

7. Were there any times you disagreed with the referee's calls based upon application of the rules? This does not mean he called it blue's ball instead of red's or that he called a corner kick when you thought it should have been a goal kick. An example would be calling an indirect free kick in the penalty area for "an unintentional handball". (There is no such thing.)

Did your team win, lose or draw?

Did your team receive any red or yellow cards?
