## X. FAQ (Frequently Asked Questions)

1. Do I need to stay during K-2 practice?
  - Yes, it is mandatory that parents and guardians of Kinder – 2<sup>nd</sup> grade athletes stay during the duration of practices to ensure that their child is accompanied to the restrooms just in case they need it.
2. Do I need to stay during 3-8 practice?
  - For grades 6-8 no. Otherwise, it is highly recommended for parents and guardians of grades 3-5<sup>th</sup> grades stay during the duration of practices to ensure that their child is accompanied to the restrooms just in case they need it.
3. My child cannot attend regularly scheduled practices because they are doing other sports already. However, he or she can attend the track meets regularly. What are our options?
  - Practices are for conditioning and strength development. Other sports provide these as well. If your child is part of a Relay team, it will be hard for their teammates to practice without a complete team. Thus at the minimum, attend critical practices so that you will be familiar with the team’s routine.
4. Does my child need to stay the entire time during the track meet?
  - Not really. However, letting them stay for the entire duration allows them to get use to the length of the meet. This allows them to pace themselves as well as socialize with their friends.
5. When does my child get their earned ribbons for running and field events?
  - Ribbons earned during the running events are handed out as soon as the athletes cross the finish line. Field event ribbons will be distributed by the coordinator at the beginning of the next meet. The coordinator can make these ribbons available through the coaches at the meet or at the next team practice.
6. Can my volunteer staging time be counted as Parent Participation Hours for St. Joseph School?
  - Absolutely
7. Does rain cancel the meet? Who should I call to confirm if there is a track meet?
  - Yes, it is possible. However, the section coordinator is the only one that can call the meet off, in the event of a down pour. Usually, this is about 1hr prior to start. With that, might as well go to track. When in doubt, go anyway. No need to call, just go to the track meet and see if it will get cancelled.
8. My child lost his/her BIB. Can we get another one?
  - Not an original one. BIB Numbers are issued unique for each child. If you loose the BIB, we can create a handwritten one. So, please do not loose the issued BIB numbers.
9. My child is stuck in a field event. He/she has a running event that is being staged. What should we do?
  - Have her report in the running event or notify pure relay team of availability. Go back to the field event and complete a few attempts. You can always go back to the field event and finish off the set to complete your turn. After the running event is done, make sure the field event is completed immediately.

## XI. Closing Prayer

Dear Lord, Bless our athletes that they gain strength and endurance this season. Bless our parents for their understanding and support. Please give our coaches & coordinators the gift of guiding light to conduct a safe, successful and enjoyable season. For this we pray, Amen.
