Locker Rooms and Changing Areas Policy

Athletes (especially minors) are particularly vulnerable in locker rooms and changing areas due to various stages of dress/undress and because Minor Athletes are less supervised in locker rooms and changing areas than at other times. Minor athlete-to-athlete problems, such as child sexual abuse, bullying, harassment and hazing, often occur at times when athletes are not monitored. This is especially true in locker rooms. Because athletes are vulnerable in locker rooms and changing areas, it is also important to monitor contact between Adult Participants and Minor Athletes. Adherence to a locker room and changing areas policy enhances privacy and reduces the likelihood of misconduct.

A. Organizational Requirements for Education & Training

1. USA Baseball must track whether Adult Participants under its jurisdiction complete the required training listed in Part I.
2. USA Baseball must, on an annual basis, offer and, subject to parental consent, give training to Minor Athletes on the prevention and reporting of child abuse.
 - a. For training to Minor Athletes, the Organization must track a description of the training and how the training was offered and provided to Minor Athletes.
 - b. USA Baseball is not required to track individual course completions of Minor Athletes.
3. USA Baseball must, on an annual basis, offer training to parents on the prevention and reporting of child abuse.

B. Required Prevention Policies and Implementation

1. USA Baseball must develop Minor Athlete Abuse Prevention Policies (MAAPPS) that contain the mandatory components of the Center’s model policies in Part III. These model policies cover:
 - a. One-on-one interactions
 - b. Meetings and training sessions
 - c. Athletic training modalities, massages, and rubdowns
 - d. Locker rooms and changing areas
 - e. Electronic communications
 - f. Transportation
 - g. Lodging
2. The policies must be approved by the Center as described in subsection (C) below. The policies may include the recommended components in Part III and the recommended policies in Part IV. Given the uniqueness of each sport, however, some recommended components or policies may not be feasible or appropriate. An Organization may choose to implement stricter standards than the model policies.
3. USA Baseball must also require that its LAOs implement these policies within each LAO.
4. USA Baseball must implement these policies for all In-Program Contact.
 - a. At sanctioned events and facilities partially or fully under its jurisdiction, the organization must take steps to ensure the policies are implemented and followed.
 - b. For In-Program Contact that occurs outside USA Baseball’s sanctioned event or facilities, implementing these policies means:
 - i. Communicating the policies to individuals under its jurisdiction;
 - ii. Establishing a reporting mechanism for violations of the policies;
 - iii. Investigating and enforcing violations of the policies.
5. USA Baseball must have a reporting mechanism to accept reports that an Adult Participant is violating USA Baseball’s BASE MAAPPS. USA Baseball must appropriately investigate and resolve any reports received, unless the violation is reported to the Center and it exercises jurisdiction

over the report. This requirement is in addition to requirements to report abuse under the SafeSport Code.

C. Policy Approval and Submission Process

1. USA Baseball may adopt the MAAPPs as-is or adapt it to fit their needs. Regardless, each Organization must submit their policies to the Center at compliance@safesport.org for review and approval by January 31, 2021. The Center will approve, approve with modifications, or deny the policies. If the Center denies the proposed policy, the mandatory components of Part III become the default policy until the Center approves the policy.
2. USA Baseball must require their LAOs to incorporate the mandatory components of Part III. NGBs may require that their LAOs implement the NGB's policies, which may be more stringent than the policies in Part III.
3. USA Baseball may, in its discretion, require its National Member Organizations (NMO) to implement these policies.
 - An NGB that chooses to require its NMOs to implement the Education & Training Policy must obtain advanced, written approval from the Center to expand the training access to additional persons. Requests must be submitted to ngbervices@safesport.org.
4. The mandatory components of Part III will serve as the default policy for any organization that fails to develop its own policy as required by this section.

Senate Bill 534 - Protecting Young Victims from Sexual Abuse and Safe Sport Authorization Act of 2017 – This bill amends the Victims of Child Abuse Act of 1990 to extend the duty to report suspected child abuse, including sexual abuse, to certain adults who are authorized to interact with minor or amateur athletes at a facility under the jurisdiction of a national governing body.

An individual who is required, but fails, to report suspected child sex abuse is subject to criminal penalties.

Additionally, the bill amends the federal criminal code to revise civil remedy provisions for a victim of a human trafficking offense or federal sex offense. Among other things, it changes the civil statute of limitations to 10 years from the date the victim discovers the violation or injury (currently, 10 years from the date the cause of action arose). The bill also extends the statute of limitations for a minor victim of

a federal sex offense to file a civil action to 10 years (currently, 3 years) from the date such individual reaches age 18.

Finally, the bill amends the Amateur Sports Act of 1978: (1) to authorize national governing bodies to develop training, practices, policies, and procedures to prevent the abuse of minor or amateur athletes; and (2) to require national governing bodies to develop and enforce policies, mechanisms, and procedures to prevent, report, and respond to the abuse of minor or amateur athletes.

Unaffiliated Amateur Baseball Organizations – All other amateur organizations that are not a national member organization or a local affiliate organization.

United States Olympic & Paralympic Committee (USOPC) – The United States Olympic & Paralympic Committee was reorganized by the Ted Stevens Olympic and Amateur Sports Act, originally enacted in 1978. It is a federally chartered nonprofit corporation and does not receive federal financial support (other than for select Paralympic military programs). Pursuant to the Ted Stevens Olympic and Amateur Sports Act, the USOPC has the exclusive right to use and authorize the use of Olympic-related marks, images and terminology in the United States. The USOPC licenses that right to sponsors as a means of generating revenue in support of its mission. Unlike most other nations, the United States does not have a sports ministry. The USOPC has two primary responsibilities in its oversight of Olympic and Paralympic sport in the United States. The first is to generate resources in support of its mission, which is to help American athletes achieve sustained competitive excellence. The second is to ensure organizational resources are wisely and effectively used to that end.

U.S. Center for SafeSport – The U.S. Center for SafeSport is an independent nonprofit organization committed to ending all forms of abuse in sport. This includes bullying, harassment, hazing, physical abuse, emotional abuse, and sexual misconduct and abuse. The U.S. Center for SafeSport is the first and only national organization of its kind. The center provides services to sport entities on abuse prevention techniques, policies and programs and provides a safe, professional and confidential place for individuals to report sexual abuse within the U.S. Olympic and Paralympic Movements.
